

7/6/19

LOADING BARS / PROGRESS BARS  
Progress bars → Mechanism to indicate % task completion;  
→ help in perceptual reduction of wait time  
as system is busy processing user request;  
→ provide feedback on status  
egs: Video Streaming, mail loading, Web loading

→ Determine	Indeterminate loading bars
↓	
visual indication of % task left / completed	indicates only task progress with no quantum indication * load time 2 small / unknown choice

\* < 5 seconds task — No progress bars better than having a progress bars

types — Early pause; late pause; slow way, Fast way; Accelerating (power), Decelerating (Inverse power), Fast power, Ifp
